

Storm Cleanup Update Following Thursday's Storm

Dear Lake Pointe Residents,

Following the storm on Thursday, August 27, Lake Pointe MUD is aware of leaves, downed tree limbs, and other storm debris in multiple locations throughout the neighborhood.

LPMUD is working with its landscaping contractor to clear debris obstructing roads, sidewalks, public rights-of-way, and MUD-maintained common areas, with work potentially beginning as early as today.

Homeowners remain responsible for cleaning up and disposing of trees, limbs, leaves, and other debris originating from their property. LPMUD will not collect or haul private-property debris.

Please DO NOT place or blow debris (including leaves) into the roads or sidewalks, as this can clog or damage storm drains and increase the risk of expensive remediation and flooding. Bagged leaves may be placed with regular trash, subject to the normal weekly limits.

Brush and limbs are not automatically collected on weekly trash days. Residents must schedule one of their two annual bulky/brush pickups directly with TDS at 800-375-8375. Bundles must be tied, no more than four feet long or 35 pounds, and contain limbs no larger than four inches in diameter. Each scheduled collection is limited to three cubic yards.

Please report general storm damage to facilities@lakepointemud.org. For Preserve or trail damage, please report to preserve@lakepointemud.org.

Thank you for helping keep Lake Pointe's roads, sidewalks, drainage facilities, and common areas safe and accessible while storm cleanup is underway.
