

Vista Pointe Park Closure: Construction Update

Vista Pointe Park Closure: Construction Update

Dear Lake Pointe Residents,

Vista Pointe Park is now closed to the public starting today, August 14th, as construction begins on the neighborhood improvement project.

The park is expected to remain closed for approximately 90 days, with a current reopening goal of mid-November 2026. Please keep in mind that this schedule may change depending on weather and construction conditions.

During this period, the park and all fenced construction zones are strictly off-limits to ensure resident safety while heavy work is performed.

Construction crews are currently on-site performing trenching to relocate irrigation lines and electrical wiring. This foundation work is the first step toward several exciting enhancements, including:

- A 10-by-12 foot masonry restroom building located near the drive entrance.
- A new covered swing area.
- Two new grills for community use. An extension of the pavilion roof to provide shade over the grills.
- Updated lighting and new pavilion fans.

Trail Access Remains Open While the main park area is closed, the access road and the existing vehicle and pedestrian gates leading to the preserve trails will remain open. If you are using the trails, please follow all posted signs and stay outside of the fenced-off construction areas for your safety.

We will post regular project updates on the <https://www.lakepointemud.org/projects>. If you have any specific questions, please contact us at info@lakepointemud.org.

We appreciate your patience while we work to upgrade these facilities for our neighborhood to enjoy.

Thank you,

Lake Pointe Municipal Utility District
